

S&P is a leading company in the field of building reinforcement and offers system solutions for retrofitting existing structures made of reinforced concrete, steel, masonry, wood and asphalt surfaces such as roads and airport taxi-ways.

To strengthen our successful and dynamic team we are looking for the next possible date at one of our European locations a

## European Product Manager “Asphalt Reinforcement” and “FRCM” Systems

*FRCM - Fiber-Reinforced Cementitious Matrix*

### Your tasks

- You will be responsible for the management of defined product areas
- You will take over strategic product planning, conduct market analyses, define market needs and develop long-term strategies
- You are the interface function to the adjacent departments (e.g. product development, sales, customers)
- As a product manager, you are responsible for new product launches on the European market
- You observe and analyze the relevant market and competitive situation (innovations, trends, market shares, price structure, product portfolio, etc.)

### Your profile

- You have completed your studies (diploma/master/bachelor) in civil engineering / product management or equivalent.
- You have professional experience in product management and/or experience with technical construction products in general, and you have an understanding of engineering principles and willingness to learn. Experience with pavement, with mortars and/or structural reinforcements is of great advantage.
- You have very good collaboration and communication skills.
- You master your tasks with a high level of personal commitment and have an independent, solution- and result-oriented way of working.
- You have business intelligence (understanding key financial figures), and the IT skills (Excel, SAP...) round up your profile.
- Very good English skills in written and spoken are required. Any other language is an advantage.
- Willingness and availability for occasional business travel.

### We offer

- Innovative and results-oriented environment
- Flat hierarchy
- Challenging tasks and an opportunity to work with colleagues across Europe
- Committed and future-oriented team
- Open communication and good training
- Regulated working hours

The way of dealing at S&P Clever Reinforcement AG is characterized by open communication and mutual support. Respect and recognition are important factors in our corporate culture. This creates scope for exceptional performance and solutions.

S&P is part of the Simpson Strong-Tie Company Inc. (SST), headquartered in Pleasanton, California. SST is a leading global manufacturer of wood connector and fastener products, mechanical and chemical anchor and dowel products, epoxy mortars. etc. The company is quoted on the New York Stock Exchange under the symbol "SSD".
